Date: _____

Domain Name: _____

Domain Registrant: _____

Select one of the two options listed below and attach required documentation. Your request cannot be processed without supporting documentation.

Domain Transfer

This option is to be used for a transfer of a domain from one registrar to another. Attach an LOA (Letter of Authorization), allowing the new registrar to manage the listed domain. A copy of a valid government issued photo ID is required for validation purposes.

- If the domain registrant is an organization, the LOA should be on company stationery and include a copy of a valid government issued photo ID of the person signing the document.
- LOA has to be submitted via the new domain registrar for processing.

Domain Trade

This option is for a trade of domain registration from one registrant to another. An LOA (Letter of Authorization) from the current domain registrant detailing the new registrant information (name and address) is necessary. A copy of a valid government issued photo ID is required for validation purposes.

- If the domain registrant is an organization, the LOA should be on company stationery and include a copy of a valid government issued photo ID of the person signing the document.
- LOA has to be submitted via the current domain registrar for processing.
- NOTE: A trade is not without charge and will reset the domain expiration to one year from the date of processing of the trade.
